

Microsoft SharePoint Solutions

Accelerate Your Time to Value

Decusoft's SharePoint Deployment Planning program is a one or two week roadmap planning and information assessment wherein our Collaboration / SharePoint Practice works with you to provide the thought leadership and strategic "next-step" guidance to ensure a comprehensive framework for your SharePoint environment.

Experience
Decusoft's simple
cost-effective,
comprehensive
approach to
SharePoint
solution design and
deployment.

We empower you to:

- **Connect with business users immediately**
- **Educate your team on critical decisions about the SharePoint Environment**
- **Pilot SharePoint capabilities in conjunction with your business processes.**
- **Expedite user buy-in of the platform**
- **Prioritize project requests from departments, project teams and even customers**
- **Balance strategy options and implementation priorities**

Our 3-Step Process

1	ASSESS THE CURRENT SITUATION - "AS IS"	Identify current situation Define business and technical objectives Stakeholder working sessions Target priorities	Identify timelines Analyze industry case studies Present SharePoint best practices Explain core SharePoint offerings
2	IDENTIFY IMPROVED SHAREPOINT ROADMAP - "TO BE"	Develop gap analysis Formulate roadmap	Opportunities <ul style="list-style-type: none"> • Collaboration • Workflow • Customization • Integration • Enterprise Roll-Out • Upgrade Management • Support
3	TAKE ACTION	Delivery of tailored assessment report <ul style="list-style-type: none"> • Company Specific needs and information • Evaluation of information 	Delivery of actionable roadmap <ul style="list-style-type: none"> • Implementation recommendations

Cost Effective, Rapid Deployment, Immediate Results
