SharePoint
Accelerate Time to Value

Infogain's SharePoint QuickStart program is a five-day roadmap planning and information assessment wherein a senior consultant from our Collaboration / SharePoint Practice works with you to provide the thought leadership and strategic "next-step" guidance to enssure a comprehensive framework for your SharePoint environment.

Experience Infogain's simple cost-effective, best practice approach to SharePoint solution design and deployment.

We empower you to:
- **Connect with business users immediately**
- **Educate your team on critical decisions about the SharePoint Environment**
- **Pilot SharePoint capabilities in conjunction with your business processes.**
- **Expedite user buy-in of the platform**
- **Prioritize project requests from departments, project teams and even customers**
- **Balance strategy options and implementation priorities**

Our 3-Step Process

1	ANALYZE THE CURRENT SITUATION - "AS IS"	Identify current situation Define business and technical objectives Stakeholder working sessions Target priorities	Identify timelines Analyze industry case studies Present SharePoint best practices Explain core SharePoint offerings
2	IDENTIFY IMPROVED SHAREPOINT ROADMAP - "TO BE"	Develop gap analysis Formulate roadmap	**Opportunities** • Collaboration • Enterprise Roll-Out • Workflow • Upgrade • Customization Management • Integration • Support
3	TAKE ACTION	**Delivery of tailored assessment report** • Company Specific needs and information • Evaluation of information	**Delivery of actionable roadmap** • Implementation recommenda-tions

Low Cost, Rapid Deployment, Immediate Results

Move your SharePoint project forward with confidence now! Derived from our 20 years of industry, business consulting and implementation experience, we can get you started today in driving value through this short-term engagement for as little as $25k.
